Laser Safety**

8211 Blaikie Ct, Sarasota, FL 34240

866-835-2737

<https://innovativelasersafety.com/>

Your Laser Safety Experts since 1993

The first day is for **laser operators**, running equipment, in any health care related field. The second day expands on that and completes the required training for **Medical Laser Safety Officers** (MLSO). Every facility **MUST** have an LSO, from large hospitals to small private medical or aesthetic practices. Attend just the first day, or both for the Safety Officer.

8.0 RN Contact Hours awarded for Day 1 only, or 16.1 Hours for Days 1& 2.

This program meets National Standards for training of Laser Operators and Safety Officers.

June 7-8, 2024. (Fri-Sat) Held at Innovative Laser Safety, Sarasota Florida

\$475 For Day One Only. \$895 for full Two Days Laser Safety Officer.

BONUS for those attending the two day Laser Safety Officer – A 10 person package of our accredited online “Laser Techs – Safety and Operation” course for your staff.

To Register go to https://lasertraining.org/Registration_Seminar.php - from the drop down list, choose either the 1 or two day program:

LASER TECHS - 1st Day only - Medical Laser Safety \$475

LASER SAFETY OFFICER - 2 Days MLSO - \$895

In the “Course Date and City” field, just enter June 7-8, 2024, Sarasota FL

COURSE
DESCRIPTION:

The "Surgical Booties Camp" of Laser Training

The Laser Course

Medical Laser Safety Officers &
Surgical Operators / Assistants

This program is utilized by Nurses, Physicians, Technicians, Aestheticians and Biomedical Engineers to meet the educational requirements for Laser Biophysics, Tissue Interaction and Laser Safety Training required by A.N.S.I.. Additionally the course trains Laser Safety Officers (LSO's) who have been given the responsibility of establishing the institutions' Laser Safety Program. As part of this course, a basic Laser Powerpoint presentation is provided that can be used for teaching purposes for your own staff. It also includes a full PowerPoint presentation with embedded videos on Airway Laser Safety for Hospital LSO's. The full two day program provides a thorough understanding of all procedures required to ensure compliance of your laser safety program with ANSI, OSHA and JCAHO, and meet various State requirements, for both Hospitals or private practices.

The Safety presentations we use in this program is the same Safety material we have developed and presented on behalf of the American Society for Laser Medicine & Surgery (ASLMS) for use in training at their annual Scientific meeting and regional courses. We previously presented the Laser Safety portions of that training for the ASLMS, and Gregory Absten received the ASLMS "Excellence in Education" award.

BECOME A CERTIFIED MEDICAL LASER SAFETY OFFICER!

The NCLC LASER CERTIFICATION PROGRAM for LSO's will be discussed at this program, and Certification Exams and Intensive Review taken at the option of the participant the last afternoon. The ANSI Standards now RECOMMEND the Certification.

This is the "Boot Camp" Laser course to gain a solid foundation in Medical/Surgical Laser Safety, earn a certificate of Laser Training, and optionally sit for the Medical Laser Safety Officer Certification Exam.

**Medical Laser Safety Officer &
Surgical Operator / Assistant**
A Laser Certification Preparation Program
2 Day Course Outline

Day 1— 7:30am-5:00pm LASER SAFETY FOR MEDICAL PERSONNEL

SESSION I:

7:30 am **Registration & Coffee**

7:55 am **Course Introduction & Welcome – Innovative Laser Safety**

8:00 am **Fundamentals of Laser & Light Use (Laser Biophysics), & Tissue Effects**

Practical laser biophysics - Types of Lasers & Light Sources - Pulse lengths - Wavelengths

- Energy Concepts – Dosimetry – Delivery Systems - Thermal Relaxation Times - IPL vs Laser

Light/Tissue Interaction - Photodynamic Therapy—Pulsing & CW beam delivery— Delivery devices

9:30 am **BREAK**

9:45 am **Continue with Fundamentals of Laser & Light Use**

12:00 **LUNCH** - Provided

1:15 pm **Laser Safety - Risk Assessment, Administrative & Procedural Controls
Compliance with ANSI standards**

2:15 pm **BREAK**

2:30 pm **Laser Safety Continued—Laser Safe Practices**

3:30 pm **BREAK**

3:40 pm **Laser Safety Including Considerations for Surgical & Aesthetic Environments**

4:40 pm **Discussion**

5:00 pm **Adjourn**

(420 actual minutes)

**Medical Laser Safety Officer &
Surgical Operator / Assistant**
A Laser Certification Preparation Program
2 Day Course Outline

Day 2— 7:30am-4:30pm MEDICAL LASER SAFETY OFFICER

SESSION I:

7:30 am **Coffee & Sign-in**

8:00 am - 11:00 am

**Review of ANSI 136.3 Standards—Safe Use of Lasers in Health Care Facilities
(American National Standards Institute)**

Review of materials on USB thumb Drive for LSO attendees – including additional material on organization of your laser program, sample policies and procedures, Laser Safety Inservices for the LSO to present, Airway Laser Safety for surgical staff, a “Cliff Notes” summary of the ANSI Z136.3 standards (you still need a set of standards)

10:00—10:15 am **BREAK**

11:00 am **CERTIFICATION REVIEW**—Detailed “Jam Session” Review for
NCLC Medical Laser Safety Officer Certification
(Now recommended by ANSI Standards)

12:15 **LUNCH** – On own

(at option of each attendee, you may skip lunch and we’ll start the exam right away to get out early – we’ll have a show of hands before lunch)

1:30 pm **NCLC LASER CERTIFICATION EXAM—PROCTORED TESTING**

3 hours is allotted for the testing. Many finish within 2 hours.

Participants will know their score before leaving.

There is no “down-side” if you do not pass the exam the first time. You still receive your accredited Certificate of Laser Training.

4:30 pm **Adjourn—Awarding of Certificates of Laser Training**

(You can leave whenever you are finished with the examination)

(405 actual minutes)

**Candidates should review in advance all
Certification Requirements contained in the
Certification Handbook.**

←—————→

NCLC Certified Medical Laser Safety Officer (CLSO/M)

www.LaserCertification.org

Offered since 2000, the Medical Laser Safety Officer certification is administered through the National Council on Laser Certification. We will administer this examination the last afternoon of the course. You may complete the required paperwork at the time of the course and do not need to make advance application.

The Laser Safety Officer Certification is a Professional Credential that reflects your knowledge in this field. This Certification is NOT a requirement of any State but is recommended by ANSI standards. It DOES reflect your professionalism in this field. **You will be setup prior to the course for an online “Practice Exam”** that self-grades online. You can take this as many times as you like prior to the actual exam.

FACULTY

Gregory T. Absten, B.Sc., MBA, CLSO/M
Executive Director
Professional Medical Education Assn.

A 46 year veteran in the Medical Laser Field, Mr. Absten is an internationally recognized lecturer and author on the subject of medical laser applications and safety. He is the Executive Director of Professional Medical Education Assn., Inc. -- the non-profit group sponsoring this course through the Laser Training Institute division. A Scientific Fellow with the American Society for Laser Medicine and Surgery, he has served as the Course Director for the ASLMS "Laser Biophysics and Safety Courses" for a number of years at their annual scientific meetings and has taught for the Nursing Course and "Fundamentals of Laser" Course of this meeting many times. He served as the Exhibits Chairman for the annual Scientific Meeting for more than 14 years, was a member of the Laser Safety committee, and past member of the Board of Directors. He is a member of the ANSI 136.3 Committee on the Safe Use of Lasers in Health Care. He is a Laser Safety Consultant and staff educator with The Ohio State University Medical Center, and has served as a Director or Advisor to many medical laser organizations. He chairs the National Council on Laser Certification. He has taught hundreds of physician and nursing laser courses and has been actively involved with hands-on physician training in both surgical lasers and endoscopic procedures in most specialties. His initial clinical background in the 70's involved Critical Care patient management as a Registered Respiratory Therapist, while he built lasers at home.

Professional Medical Education Association provides the nursing accreditation for the annual American Society of Lasers in Medicine & Surgery scientific meeting.

WHY ATTEND?

- Earn the ANSI Recommended Professional Credentials of Certified Medical Laser Safety Officer (CLSO/M)
- Familiarize yourself with ANSI 136.3 Laser Standards
- Great for Staff turnover and staying current
- This is the MAINSTAY SURGICAL LASER TRAINING PROGRAM in the United States
- Courses consistently rated excellent by past attendees
- 16.1 Nursing Credits for the 2 days, or 8.0 for 1 day
- Ensure your compliance with OSHA and JCAHO - You MUST have a Laser Safety Officer
- Learn about NCLC Laser Certifications for Medical Laser Safety Officers
- Obtain all the teaching materials we provide at the course so you can go home and train YOUR staff, including Laser Airway Safety
- Attendees for the full 2 day LSO program receive a FREE package of 10 spots for our accredited online "Laser Techs – Safety and Operation" course for your staff.

As a recent attendee stated: "This is a very practical course..... Though I was initially intimidated by all the material I was expected to learn about lasers, I was pleased to see that it was all presented in a clear and easy-to-understand manner for a staff nurse such as myself to comprehend and use. I'd recommend this program".
